## Pain point

Our pain point for our website is to improve the mental health of students that might have been affected during this pandemic.

## Value proposition

This website helps students across the tdsb connect and talk to each other. This will help students make more friends, engage in better activities and inspire them to do better in class. During this pandemic, students might get discouraged and not feel like doing school work or attending online school because they can't meet their friends. This website would allow them to connect with people outside of their schools and not feel so lonely anymore.

## Competition

Hangouts as well as other chat room based websites.

## Mission statement

Our mission statement is to create a website that can help TDSB students connect and engage with others online and have fun.

# How it works

Longo Convo is a free chatting website for children in the TDSB for students in grade 4 to 8. To use our website you have to log into <http://aw.tdsb.on.ca>. After you login you should have an account made under your TDSB account. You can then create your own avatar like the one below and begin chatting with your friends as well as make new ones.

Login

Please enter your TDSB **student number** or **employee number** and password then click "Login"

# why it's great

- This app helps kids connect from across the TDSB
- Acts as a place for children to express their feelings openly to their peers, and meet new people.
- It helps you discover and create.
- It gives motivation.
- You can enjoy learning new and trying new things with the recommended page.

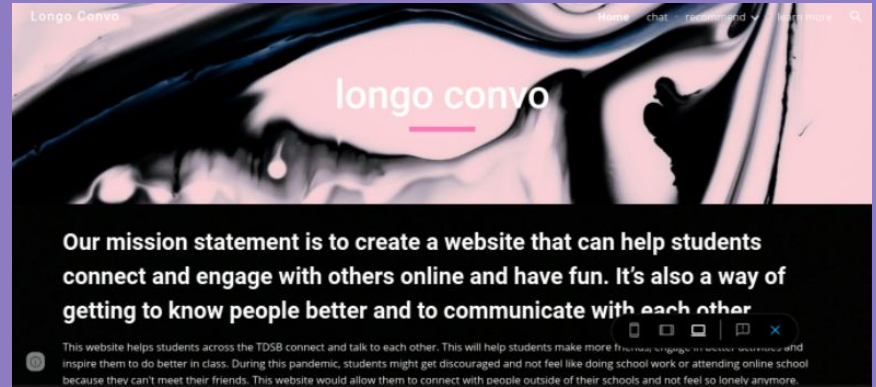

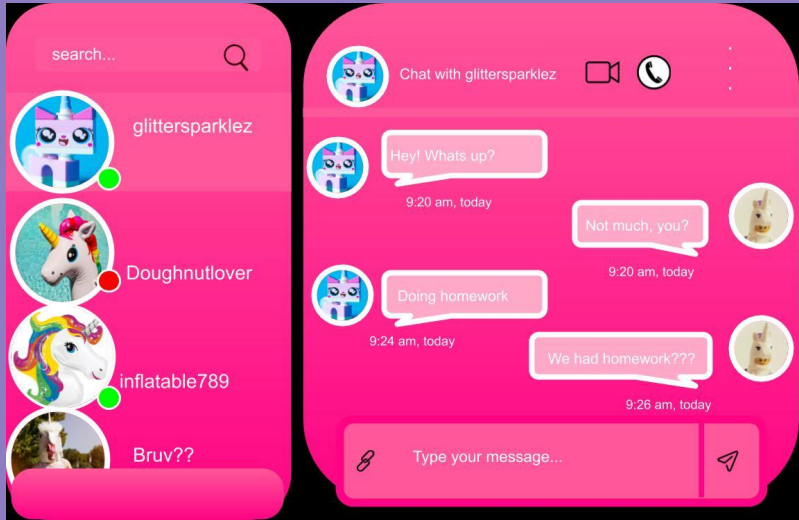

# Prototype 1

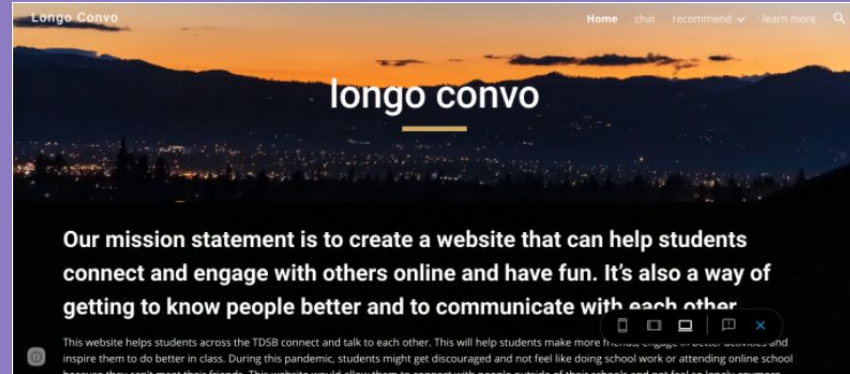

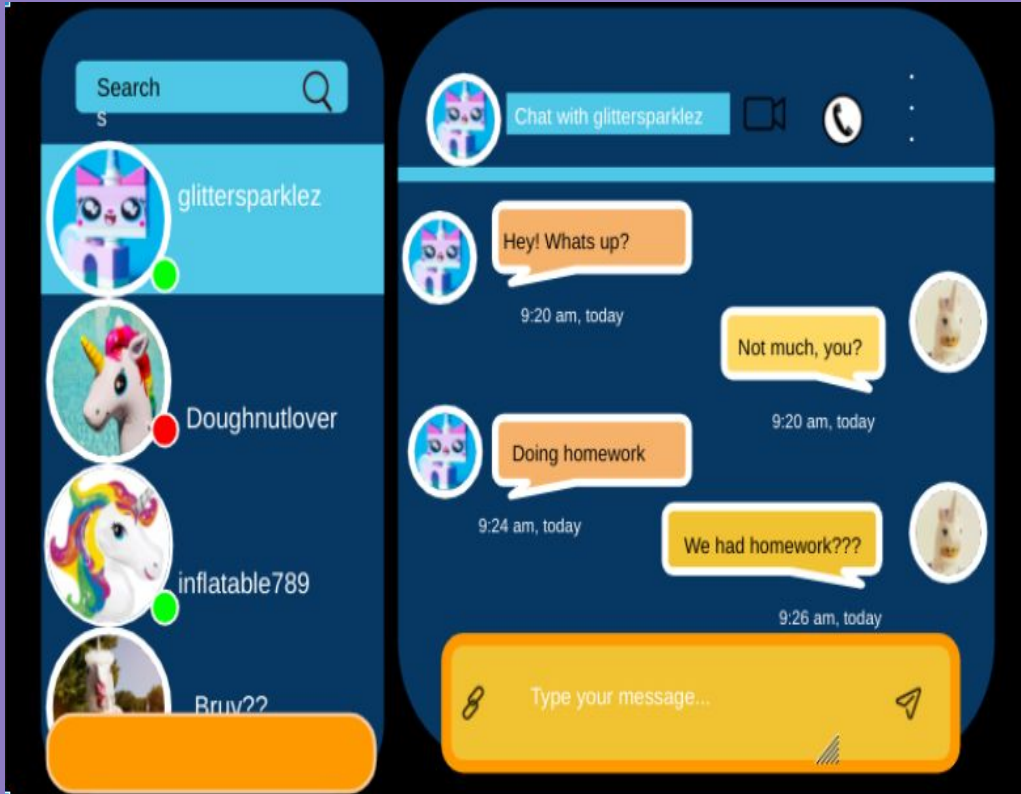

# Prototype 2

# Prototype 3

# Prototype 4

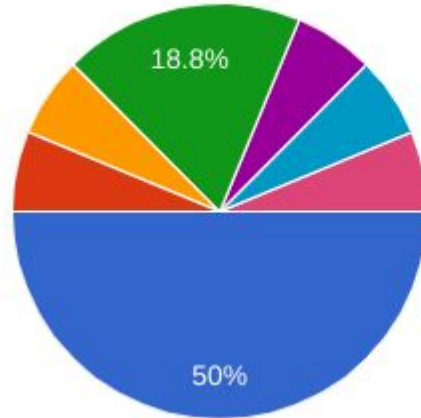

# After collecting data from the class on what prototype looked the best, we found that 50% of the class wanted prototype 1.

which color scheme looks better? (scroll down to see the website and chat variations as well)

maybe calmer colours like tangerine and colbalt

glittersparklez is the unicorn from the lego movie

Use the first one as a base and then make and option that can switch betw...

# f u t u r e p l a n s

- Add video chat features.
- Make the website go tdsb wide.
- Make it so that more age groups can access this site.
- Build more resources for recommended page.
- Update the recommended page monthly.
- Get people to monitor the website.
- Get permission to create advertisements for trending videos or movies

# finished site
